REFERENCE COPY OF TECHNICAL DOCUMENTATION FOR ACCESSIONED ELECTRONIC RECORDS

Copied: March 25, 2010

County Business Patterns (CBP), 1970-73

Record Group 029

Records of the Bureau of the Census

The National Archives and Records Administration (NARA) has been accepting electronic records into its holdings since the early 1970s. Technical documentation has accompanied each transfer of electronic records. The documentation is necessary to understand the meaning of the digitized bits of information within the electronic records.

Over the decades, NARA has had different procedures for compiling technical documentation into an organized unit for researchers, and different expectations regarding the content and extent of any NARA-produced portions of the documentation. Consequently, the structure, organization and contents of the documentation reflect the procedures in place when the technical documentation was compiled and arranged and may include out of date addresses, telephone numbers, or other items of unrevised information related to the agency that created or transferred the documentation and electronic records to NARA, to the NARA unit that processed these materials, or to the physical media of the electronic records files.

In creating the reference copy of the documentation package, NARA staff have selected from the technical and/or supplementary documentation available for this series or file(s). We have annotated or highlighted the table of contents that follows to indicate which portions of the full documentation for this series or file are included in this reference copy of documentation. Any materials not included here are available upon request. Any user notes prepared after the table of contents was prepared appear before the table of contents. This documentation will differ in structure, organization and contents from technical documentation for other series or files of accessioned electronic records. The readability and visual quality are also variable.

User Note for County Business Patterns (CBP), 1970-73

Records of the Bureau of the Census
Record Group 29

Provenance: The County Business Patterns (CBP), 1970-73 data and electronic documentation files came to NARA from the Institute for Social Science Research, University of California – Los Angeles. These files pre-date the general production of CBP electronic data files and were acquired by UCLA for their data library directly from the Bureau of the Census. Therefore, the files were accepted into the National Archives as Records of the Bureau of the Census.

Documentation: The electronic documentation was provided by UCLA in PDF form, one file per year. Each file was printed and consists of 120 pages per year. It was also retained in electronic form. Although they appear identical, we did not undertake an extensive comparison to determine whether they are duplicative.

The agency supplied record layout contains the following statement that is rather difficult to read:

“D” in the least significant digit of Total Employees and Total Wages indicates data withheld because of disclosure.

The paper by Scheidel (page 4) discusses the disclosure provisions in some detail.

The state and county code lists are included in the agency documentation. The state codes, and therefore division groupings for the data, are the Social Security Administration codes. A copy of the state code list from the 1967 & 1969 County Business Patterns documentation is included with the NARA documentation.

Data File Format: The data file format is variable length ASCII, with a maximum record length of 120. The last field is a variable length text State or County Name field starting in column 97, followed by a line feed (OA) control character. Attached is a list of the data files.

Verification: We undertook Archival Electronic Records Inspection and Control (AERIC) verification of the data files and did not detect problems with the data contents. In the Electronic Records Archives (ERA) system, we verified the PDF documentation files against NARA transfer guidance using Automatic Verification. Some minor variations were detected and are summarized in the Transfer Problem Resolution Form, TPR-0029-2009-0001.

Access: These files were ingested to ERA on February 13, 2009. They are accessible under a series of sub-folders through the ERA Asset Catalog at:

Home / Records Schedules / DAL-0029-2008-0011 / DAL-0029-2008-0011-0001 / TR-0029-2009-0001 / TR-0029-2009-0001-SM-115 / Shipment Content / CBP for ERA
