Release Number

May 2008: Variables ER20395-ER20458, formerly available separately, have now been incorporated into this file with those variable names. Variable ER20394 has been recalculated. Variable ER20459, a family cross-sectional weight, has been added.

November 2013: Added generated variables Births to HD/WF/OFUM (ER20458A-ER20458H), Region HD Grew Up (ER20377A), Head Geographic Mobility (ER20377B), K-6 Distress Scale (ER19833A). Also added Calls for Iw (ER17005B), and Iw Length (ER17005C). For this release we have also updated some of the KL background variables that were not ready at the time of the original 2001 release. On release 3, we are suppressing some additional variables to protect the anonymity of our respondents.

February 2014: For Release 4 we have added one new coded variable in the philanthropy section (ER20081A) and Collapsed Beale (ER20377C). Additionally, we have corrected extant T-2 variables for a handful of cases.

January 2016: For Release 5 we have corrected the bottom code for H14/H38 (ER19709/ER19817) and H17/H41 (ER19712/ER19820) for both Head and Wife/"Wife" where 1 means one cigarette or fewer per day.

November 2017: For Release 6 we have added 25 generated food security variables (ER18470A-ER18470Y). The food security variables were put through the same imputation and calculation process as was completed on the 2015 data to produce food security scale score and category. We have also added the aggregated consumption variables (ER20456A1-ER20456D6) to the family release file. These variables were previously released on a supplemental file.

ER25001 "RELEASE NUMBER"

Release Number

November 2013: Correcting the following four variables: Births to OFUMS in 2003 (ER28077), Number of businesses owned by FU in 2004 (ER27907), Number of businesses owned by Head (ER27912), and Number of businesses owned by Wife (ER27942). Due to further hand look-ups after Release 2 was made, there are 198 cases that have different values for Head and Wife Taxable Income - 2004 (ER27953) and Total Family Money Income - 2004 (ER28037). In addition, we are suppressing previously released variables Beale Rural-Urban Code (ER28043), and Size of Largest City the county (ER28044).

February 2014: For Release 4 we have added four new coded variables in the philanthropy section M12code, M41code, M43code and M52code (ER27510A, ER27634A, ER27644A, ER27667A) and Collapsed Beale (ER28043A). In addition we have dropped fifteen previously released variables from the T-2 (Section R) range (ER27712-ER27726). These were originally released as family level variables for Head and Wife/"Wife" but since they also contain data for OFUMS, we have moved them to the Cross Year Individual File instead.

January 2016: For Release 5 we have added 96 new variables in the T-2 (2003) Income section, 86 of which are about time unemployed for Head (ER27711A1-ER27711B5) and Wife/"Wife" (ER27711F4-ER27711G8), time out of the labor force for Head (ER27711B6-ER27711D1) and Wife/"Wife" (ER27711G9-ER27711J4), and time employed for Head (ER27711D2-ER27711E7) and Wife/"Wife" (ER27711J5-ER27711L1). The other 10 new variables are T-2 hours worked, labor income, and accuracy checks for Head (ER27711E8-ER27711F3) and for Wife/"Wife" (ER27711L2- ER27711L6).

November 2017: For Release 6 we have added the aggregated consumption variables (ER28037A1-ER28037E3). These variables were previously released on a supplemental file. A correction was made to the imputation of missing data for vehicle gasoline costs, additional vehicle costs, and vehicle repair costs.

Non-comparability Notes Appendix

- F-a** No missing data allowed for this variable.
- F-e** A missing data code was allowed for this variable, but values for some comparable variables in other years were assigned.
- F-g** Field widths differ. Truncation of some variables in this list may be necessary. See codebooks.
- F-i** Alcohol and cigarette costs were asked in these years and were not subtracted from the food bill. Therefore, these variables may not be strictly comparable with those of later years.
- F-jj** Background section variable, asked only of new Heads/Wives/"Wives". Data values for cases with same Heads/Wives/"Wives" as in the previous wave have been carried forward from the time when these persons most recently became new Heads/Wives/"Wives" or when the questions were reasked of all Heads/Wives/"Wives". Some of these variables may require updating. See the User Guide or the specific variable descriptions in the codebook. Note that for 1994-1996, 1999 and 2001, data have not been brought forward for same Heads and Wives/"Wives". In 1997, the background sections were rewritten to include a number of new questions; these and many familiar items were reasked of everyone. Education, sibling information, and years worked were, however, NOT reasked. Information was not brought forward from prior waves for these variables. However, from 2003 forward, the data are complete for everyone.
- F-lll** Code values for this variable, indicating the year, are the last two digits of the year mentioned. For comparable variables from 1993 onward, in preparation for the millennium, code values consist of the full four digits.
- F-n** Coding structure and/or categories differ; see codebooks for details.
- F-pp** These variables are coded directly from Wives'/"Wives" questionnaires, asked in 1976 and 1985, and reported by Wives/"Wives" themselves.
- F-q** This variable is one of two mentions coded from the responses or is a double-mention variable (a two-digit variable with the first digit equalling the data value for the first mention and the second equalling the data value for the second mention). Both first and second mention variables may or may not be priority coded. See codebooks for details.
- F-z** Extra value of food received with food stamps was added into this variable in 1972 if V2482=5.
